INTRODUCTION

Mt. Desert Island is well known for its rare combination of mountains and sea. This is one of the main reasons that led to the formation of Lafayette National Park—the only national park east of the Mississippi River. This guide-book is written to encourage people to enjoy the unusual beauty of the Island by seeing it for themselves in the most healthful, leisurely and delightfully intimate way—that of walking through its woods, up its mountains, along its streams, around its lakes and along its rocky coast. Very little mention is made of the history, geology, flora and fauna of the Island. For all persons who desire this information a list of the books and pamphlets dealing with these matters may be found on Page 98-99.

A description of specific paths and trails will not be found. Each walk, made up of one or more of these paths and trails, is carefully described and attention is called to all trails which enter or cross the walk and their destination is designated. This book, though not complete, offers sufficient variety so that the newcomer may get a good idea of the scenery and topography of the island in a short visit. For lack of space not all possible combinations of these paths and trails can be included. Many other combinations can be worked out from the path maps. It is even possible to go across country between trails, but the growth is often thick and the country rough and precipitous, thus making progress slow and difficult. There is not much danger of being lost if the walker has one of these maps and uses reasonable caution and intelligence. Practically all walks described begin and end at places where conveyances may be conveniently parked.

In 1896 Messrs. Edward L. Rand, Herbert Jacques and Waldron Bates,—who for years did so much for walking on the island,—issued the first maps of the paths and trails. A study of these maps, now issued by the joint path committee of the Island, will show that the mountains in general run north and

north, with long, gradual slopes, especially towards the south, and steep sides, almost precipitous in many instances, to the east and west. The trails, therefore, vary according to the slope. There are three of these maps *—one of the whole Island and two of the eastern and western parts respectively. These latter two are most useful with this book as the scale is larger and the paths and trails are marked in red rather than in black. The maps are easily understood except possibly the moving brown lines which denote rising ground. The difference in level between each two lines is 40 feet. The nearer the line the steeper the slope.

The system of paths and trails, approximating 200 miles, has been a long process of growth. It is maintained by the path committees of four Village Improvement Associations as follows: East of Somes Sound by Bar Harbor, Seal Harbor and Northeast Harbor (See note Page 6) and west of Somes Sound by one committee, namely Southwest Harbor.

WATER is good to drink in all the springs (except the one on the summit of Green Mt.); in all the brooks and streams (except near the settlements) and in the ponds and lakes (except Witch Hole, Breakneck Ponds and Aunt Betty's Pond).

EQUIPMENT. No special equipment is needed except shoes with rubber or fabric soles or leather soles with hobnails. Spokers are not recommended as they will not support your feet on the rough trails and rocky summits.

DISTANCES in miles mean little as the paths and trails have never been surveyed or measured. The red lines on the map do not show (on account of the small scale the maps are drawn on) the twists and turns nor the character of the footing. They may be of help in enabling the walker to judge approximately how far he has gone.

TIME ESTIMATES given will not be correct for everybody. In every case, however, they are the actual walking times that may be made by anyone going at a moderate pace not allowing stops to rest, to lunch or to survey the view. Time for such delays must be added to those given in this book. Total

* Maps are also issued by the U. S. Dep't of Commerce and by the Geological Survey of the U. S. Dep't of the Interior. They are useful in showing the geography of the Island and adjacent lands and waters, but, if no trails marked, they are not of much use in following these walks.

time for a walk and time between important points in the walk are given, i.e.; Part 1, Walk 4. From start to commencement of the Precipice Trail, 45 min.; to top of actual precipice, 15 min.; to summit of Newport Mt., 15 min.; from the summit of Newport Mt. via the Black Path and the Red & White Trail to intersection with the Brigham Trail or the Red & Black Trail, 49 min.; to the start, 35. min; or 2½ hours for the entire walk.

The paths and trails cross private property (the owners of which may at any time exercise their legal right to close them to the public) as well as National Park land. The State law and the rule of the Lafayette National Park regarding the lighting of fires are printed in the back of this book and should be strictly observed. If you smoke, be careful especially with matches and cigarettes. Remnants of luncheons should be removed; the breaking of bottles, the uprooting of plants and the barking of trees should be avoided.

The paths and trails are marked at their entrances and crossings by signs suitably inscribed; by cairns, i.e. piles of stones along the open rocks and ledges; by rustic arrows or pointers in the woods, or by colors painted on trees and rocks as around Newport Mt. (See notes Pages 6-8). Throughout this book the old names of the mountains are used, but on Page 96 both the new and old names will be found together with the heights in feet.

All these marks are put in their places for a real purpose, and walkers are earnestly requested, for the sake of others who may come after them, to see that these marks are not destroyed. Any criticisms as to the condition of these various paths and trails, together with suggestions as to possible improvements, will be welcomed by the Path Committees at any time. AS IT COSTS MONEY TO KEEP THESE PATHS AND TRAILS OPEN AND TO KEEP THE MARKS IN CONDITION, WALKERS ARE URGED TO HELP ANY OF THE FOUR PATH COMMITTEES ABOVE MENTIONED WITH CONTRIBUTIONS OF MONEY IN ANY AMOUNTS.

January 1, 1928.

NOTE 3. OTHER TRAILS.

There are many other trails which are not colored, and are not named on the map. Remember that there are two Precipice Trails: a short one, up The Beehive, and a long one, up the east slope of Newport Mt.

WALKS EAST OF SOMES SOUND

(Abbreviations used are as follows: L.-left; R.-right; ft.-feet; hr(s).-hour(s); min(s).-minute(s); mt(s). or mtn(s).-mountain(s); str.-straight; ht.-height; N.-north; S.-south; E.-east; W.-west; N.E.-northeast; N.W.-northwest; S.E.-southeast; S.W.-southwest.)

WALK 1.

PICKET MT. via the BEECHCROFT PATH. Return the same way.

Distance about 2 miles. Time 50 minutes.

Start EAST from the Bar Harbor Road at sign "Beechcroft Path" marked on large boulder directly opposite entrance to some gravel pits at the north end of the Gorge or Tarn between Dry and Picket Mts. Path leads by zigzags over ancient rock slide up the west slope of Picket Mt. (fine views of the Tarn below and Dry Mt. to the west) and, around the southern brow of the mountain, to junction on the saddle between Newport and Picket Mts. (30 min. Trail sharp R. leads down to Bar Harbor Road. Trail L. with black and white marks is a steep trail down to Beaver Dam Pool or Robinhood Park. Trail straight ahead, with black and white marks, leads to summit Newport Mt.) Turn sharp L. on trail, which, in one minute, leads to the summit of PICKET MT. (720 ft.) Return the same way. (20 min.)

WALK 2.

A. B. C.

A. NEWPORT MT. via the BEECHCROFT PATH and the BLACK & WHITE TRAIL. Return the same way.

Distance about 2½ miles. Time 1 hr. 20 minutes.

Follow Walk 1 to junction on the saddle between Newport and Picket Mts. Go straight ahead. (Trail R. leads to Bar Harbor Road and the Tarn. Trail L. leads to Beaver Dam

Pool and Bar Harbor Road. Trail sharp L. leads to Picket Mt.) following cairns and black and white marks up the steep west slope of Newport Mt. gradually emerging from the woods to the summit of NEWPORT MT. (Ht. 1060 ft. 45 min.). Good views over ocean and Frenchman's Bay. Summit should be noted for the extensive examples of fissures in the exposed granite due to the action of frost and water. Return the same way. (35 min.)

B. NEWPORT MT. as in A. Return via SOUTH RIDGE TRAIL or BLACK TRAIL, Black & Green Trail, Canyon Brook Trail, KANE PATH, to start.

Distance about 6 miles. Time 2 hours.

Follow as in A. to intersection on the summit of NEWPORT MT. (45 min.) (Trail L. is the North Ridge Trail to Beaver Dam Pool, the White Path, etc.). Turn R. and follow cairns and black marks down the South Ridge Trail. Pass first trail L. (The Precipice trail down the east slope of Newport Mt. to the White Path, etc.) then a second trail L. (the Red & White Trail described in 2-C. Note the colors painted on the rock.) Continue through the woods over the South Shoulder to the Black & Green Trail R. (30 min. Trail straight ahead leads around the Bowl to the Beehive, etc.) Turn sharp R. and follow the Black & Green Trail to near clearing, where, at sign "Bar Harbor Road", turn L. to the motor road. (15 min.) Cross road and skirt field for 100 ft. and take the Canyon Brook Trail. Cross brook, and at intersection beyond turn R. on trail marked "To Kane Path". (Trail straight ahead leads to Dry and Green Mts. etc. Trail L. leads down Otter Creek Valley to Otter Creek.) Trail soon enters the broad graded "Kane Path", and passes the Ladder Trail L. up Dry Mt. and a short trail R. to Bar Harbor Road. Go straight ahead over ancient rock slide on west shore of the Gorge or Tarn (note view of Picket Mt. etc.). At north end of the Tarn turn R. (path straight ahead leads to Sieur de Monts Spring; path L. is the Kurt Diederich Climb up Dry Mt.) over outlet of the Tarn to start. (30 min.)

C. NEWPORT MT. as in B. Return via SOUTH RIDGE TRAIL or BLACK TRAIL, the BOWL, Green & White Trail, Blue & White Trail, RED & WHITE TRAIL, summit of Newport Mt., Picket Mt., to start.

Distance about $5\frac{1}{2}$ miles. Time 3 hours.

Follow as in B. over the summit of Newport Mt. and, down the South Ridge Trail, (following the black marks) to the Black & Green Trail on R. (1 hr. 15 min.) Go straight ahead across brook. Turn L. on trail marked "To the Bowl." (R. trail is the Green & White trail to Otter Creek Road.) Pass around the southerly and easterly sides of the Bowl, following all signs marked "Newport Mt.", and avoiding all R. trails. (First R. trail leads to Cadillac Cliffs Path; next two R. trails lead to the Beehive and the Ocean Drive, etc.) Join the Blue & White Trail and follow to the first trail L. marked "Red & White Trail". (Trail R. leads to Brigham Trail, the White Path and the Ocean Drive, etc.). Turn L. on Red & White Trail, and again follow all signs marked "Newport Mt.". At fork turn L. still on the Red & White Trail (trail straight ahead leads to Orange & Black Trail, etc.) and climb the east slope of Newport Mt. (watch out for cairns; good views over the ocean, etc.) to the Black Trail. (1 hr. from the Green & Black Trail) Turn R. and follow to the summit of Newport Mt. Take trail L. (trail straight ahead is the North Ridge Trail to Beaver Dam Pool, the White Path, etc.) and follow same trail as on the ascent. (45 min.)

WALK 3.

NEWPORT MT. via White Path, ORANGE & BLACK TRAIL, PRECIPICE TRAIL. Return via NORTH RIDGE TRAIL, the Red & Yellow Trail, the White Path to start.

Distance about 3 miles. Time $2\frac{1}{4}$ hours.

Start west from the Schooner Head road at wood road in Bear Brook Valley at sign "To White Path—To Newport Mt." (about $\frac{1}{2}$ mile from the corner where the Seal Harbor Road and the Schooner Head Road join opposite Mt. Desert Nurseries). Cross brook. Go straight ahead on wood road

at sign "White Path" (R. wood road leads to Robinhood Park. L. wood road leads to private estate). Then take next wood road L. (wood road straight ahead leads to quarries). Note large sign on L. as follows:

To Ocean Drive and Sand Beach	1 hr. 35 min.
To Bears Den	5 min.
To Red & Yellow Trail	9 min.
To Newport Mt. by Red & Yellow Trail	45 min.
To Orange & Black Trail	20 min.
Newport Mt. by Precipice Trail	1 hr. 30 min.

Go straight ahead. Follow arrows, cairns and white marks on trees and rocks. Ascend over shoulder of Newport Mt., passing three R. trails (1st to Bears Den; 2d, Red & Yellow to Black Trail & Newport Mt.; 3d, Orange & Black to Precipice Trail & Newport Mt.). Descend through interesting rock formations. Pass Red Trail L. (This leads from the Schooner Head Rock and is the shortest way from the main road to the Precipice Trail, but the walk here described is the most interesting.) Just beyond turn R. (30 min.) away from the White Path, at sign "To Orange & Black Trail and Newport Mt.". At fork turn L. on the Orange & Black Trail at sign "To Precipice Trail & Newport Mt. 45 min.". Then turn R. at fork at sign "Precipice Trail and Newport Mt.—Steep and dangerous". (Trail straight ahead leads to Cliff Path and White Path.) Turn R. at next fork at sign "Precipice Trail, which is steep and dizzy; for experienced climbers only." (Straight ahead is the upper end of the Cliff Trail mentioned above.) Many ladders and hand rails lead up the precipice. Then follow cairns over bare rock to the "Black Trail". Turn R. to the summit of NEWPORT MT. (1 hr. 5 min.) (Trail sharp L. leads down the South Ridge to the Bowl, etc. Trail L. leads down to Picket Mt., etc.) Go straight ahead down the North Ridge following cairns and black marks gradually entering woods. Go straight ahead passing R. and L. trails (trail R. leads to Orange and Black Trail. Trail L. is the Black and Blue Trail to Robinhood Park). Then turn R. on the Red & Yellow Trail (note colored arrow painted on the rock). At the White Path, turn L. and follow to the start. (40 min.).

WALK 4.

NEWPORT MT. via Blue Trail or Murphy's Lane, White Path, Orange & Black Trail, PRECIPICE TRAIL. Return via SOUTH RIDGE TRAIL or BLACK TRAIL, RED & WHITE TRAIL, White Path to start.

Distance about 2½ miles. Time 2 hrs. 40 min.

Start west from the Schooner Head Road by the Blue Trail (on the map "Murphy's Lane") about 1¾ miles south of the corner where the Schooner Head Road and the Seal Harbor Road join opposite the Mt. Desert Nurseries, and ½ mile north of the public entrance to Schooner Head. Trail begins at sign marked "Blue Path to White Path. To Precipice Trail and Newport Mt.". Follow blue marks on trees to intersection with the White Path. Turn R. at sign marked "To Precipice Trail and Newport Mt.". Pass meadow on right. Take first trail L. away from the White Path marked "To Precipice Trail and Newport Mt.". Take next trail R. which is the Orange & Black Trail. Go over rockslide and continue on the Orange & Black trail passing L. trail (the Cliff Trail which is very steep but very interesting). Cross bridge and then turn L. away from the Orange & Black Trail on trail marked "Precipice Trail—exercise some care, etc.". Steep with many steps to commencement of the real precipice trail with signs. (45 min. Trail from L. is the end of the Cliff Trail mentioned above). Turn R. and climb by iron hand rails and iron steps up the precipice. Fine views. Leave the woods. At top of precipice (20 min.) follow cairns over gradual ascent to the Black Path. Turn R. to summit of NEWPORT MT. (15 min.) Descending, return down the Black Path or South Ridge Trail. Pass entrance to Precipice Trail. Descent is gradual to the Red & White Trail (note arrow on rock with these colors pointing L.). Turn L. (Trail straight ahead goes to the Bowl) down the East slope entering woods. Pass L. trail (leads to Orange & Black Trail described in a later walk). At next fork turn L. (R. trail is the Blue & White Trail to the Bowl) still on the Red & White Trail (steep in places) to intersection. (40 min.) Go straight ahead (Trail L. is the Brigham Trail to the White Path. Trail

R. leads to the Bowl and the Beehive) still on the same trail down first a steep slope; then fairly level to the White Path. Turn L. passing first a R. trail which is now closed, then two L. trails (1st, the Brigham Trail to the Bowl; 2d, an entrance of the Orange & Black Trail to the Precipice Trail and Newport Mt.). Turn R. at next R. trail opposite large boulder marked "To Schooner Head Road" and follow to start. (35 min.)

WALK 5.

WHITE PATH, ORANGE & BLACK TRAIL, ECHO POINT TRAIL, RED & WHITE TRAIL, Brigham Trail, White Path to start.

Distance about 5½ miles. Time 3 hrs. 50 min.

Start as in Walk 3, and follow to the "Orange & Black Trail". (20 min.) Turn R. over rock slide known on the map as the "Horseshoe", passing trail R. ascending steps marked "To Black Path and Newport Mt.". Our trail goes up and down many times along the steep east slope of Newport Mt., passing several R. and L. trails (R. trails lead to Precipice Trail and Newport Mt.; L. trails lead to the White Path). Follow Orange & Black marks on rocks and trees with now and then arrows, pointers and cairns until, after passing cliffs and over rock slide and several good vistas, a sudden, very steep descent is made by steps to the R. (iron hand railing L. leads to viewpoint. 50 min.). At fork and signs at bottom of steps, go straight ahead up steep steps (L. the Orange and Black Trail goes to the White Path) on trail marked "To the Bowl etc." Then turn L. passing sign on L. marked "Echo Point" (10 min.) (good view of cliffs). Trail turns R. up hill and ends at the Red & White Trail. Go straight ahead (Trail R. leads to the summit of Newport Mt.) on Red & White Trail at sign "To the Bowl". Bear L. when the next R. trail enters (R. is the Blue & White Trail from the Bowl) still on the Red & White Trail, and follow to intersection. (30 min.) Turn L. on the "Brigham Trail". (Steep in places. Trail straight ahead leads to the White Path. Trail R. leads to the Bowl and the Beehive) and follow to the White Path. (20 min.) Turn L. and follow the White Path (note marks on rocks and trees) to start, avoiding all R. and L. trails (50 min.).

WALK 6.

A & B

A. THE BEEHIVE, from the Ocean Drive via short PRECIPICE TRAIL. Return short way to Yellow & White Trail, to start.

Distance about 1¼ miles. Time 45 minutes.

Start west from the Ocean Drive at sign "The Bowl" about 4½ miles from the village green at Bar Harbor, and opposite entrance to "Sandy Beach". (Park car by the side of the road.) Then turn L. on the Yellow & White Trail at sign "To the Beehive". Then first R. at sign "steep trail up the Beehive—for experienced climbers only". After an interesting climb (20 min.) through dwarf pines, up iron ladders and steps, the top is reached (540 ft. Fine views of Great Head, Sandy Beach, Schoodic Point, the Ocean, etc.). A short trail leads off to the R. from which there is a fine view of the east slopes of NEWPORT MT., the Porcupine Islands near Bar Harbor, etc. Returning to main summit, take trail straight ahead marked "To the Bowl, etc.". Turn L. at fork on trail marked "To the Ocean Drive" (Trail R. leads to the Bowl). Go down steep slope passing R. trail which leads over Gorham Mt. to Cadillac Cliffs and then turn L. on the Yellow & White trail marked "Ocean Drive." (Trail R. leads to Otter Creek Road and GORHAM MT., etc.) Take first trail R. away from the Yellow & White Trail at sign "To the Ocean Drive" after passing trail L. (Precipice trail to the Beehive) and follow to start. (25 min.).

B. THE BOWL, from the Ocean Drive via the BEEHIVE, and the short PRECIPICE TRAIL. Return via the Blue & White Trail, White Path, Yellow & White Trail to start.

Distance about 2 miles. Time 1¼ hours.

Follow A. as far as the fork (25 min.) beyond the summit of the Beehive. Turn R. on the trail marked "To the Bowl". Then turn R. on trail marked "To Ocean Drive" (the Bowl is a short distance off to the L.) and follow Blue & White marks past the next trail entering from L. (which leads to the Brigham Trail and the Red & White Trail) to the White Path.

(Trail L. leads to Precipice Trail and Newport Mt.). Turn R. and then first R. again on trail marked with yellow and white marks. (L. leads to the Ocean Drive some distance from where car was parked.) Then turn L., away from the Yellow & White Trail, on trail marked "To Ocean Drive", and follow to the start. (55 min.).

WALK 7.

NEWPORT MT. from the Ocean Drive via short PRECIPICE TRAIL to the BEEHIVE, the BOWL, the SOUTH RIDGE TRAIL or BLACK TRAIL to the SUMMIT. Return via NORTH RIDGE TRAIL or BLACK TRAIL, Red & Yellow Trail, White Path and the Yellow & White Trail to start.

Distance about 6 miles. Time $3\frac{1}{4}$ hours.

Start as in Walk 6B. and follow over the Beehive to the Blue & White Trail. (30 min.) Turn L. and then straight ahead on the Green & White Trail (along the south side of the Bowl) away from the Blue & White Trail (which leads along the east side of the Bowl to the Red & White Trail. Go straight ahead at next two signs marked "Newport Mt.," passing first a trail R. (which leads along the east side of the Bowl to the Blue & White Trail), then a trail L. (which leads to Gorham Mt., Ocean Drive, etc.). Join Black Trail and follow signs marked "Newport Mt." At the intersection with the Green & White Trail L. FRONT: In honor of
 SAMUEL DE CHAMPLAIN
 Born in France 1567
 Died at Quebec 1635
 A Soldier, Sailor, Explorer and
 Administrator
 who gave the Island its name.

REAR: The same day we passed also near an island about four or five leagues long. It is very high, notched in places so as to appear from the sea like a range of seven or eight mountains close together. The summits of most of them are bare of trees for they are nothing but rock. I named it the Island of the Desert Mountains.

From the Lurvey Farm (a cellar-hole remains) by the Beech Hill road it is less than 5 min., to the left, to the

Somesville Road. Cross this, and take the DOLE TRAIL (being careful not to swerve to the L. into the Carrol Farm cart-road), 1 mile, 20 min., to the Fernald Point Road. Left, $\frac{1}{2}$ mile, 10 min., to Fernald Point.

W. part, some distance after crossing Moss Trail, a short but very steep and slippery climb leads to a bare ledge with splendid outlook to N. Further on, as one approaches Little Notch, one skirts a large gladestudded with tall trees, particularly beautiful in the afternoon. Back in Little Notch. Take MOSS TRAIL, $\frac{1}{2}$ mile, 25 min., over north summit and down to Great Notch, crossing Circular Trail on N. E. side; note mosses and outlook to N. E. from under broad spruce tree. From Great Notch, which lies between East Peak and West Peak, leave CENTER, PRETTYMARSH, and RAZORBACK TRAIL on left; take GREAT NOTCH TRAIL, S., $\frac{3}{4}$ mile, 20 min., crossing GILLEY TRAIL, to junction with SLUICEWAY TRAIL; then $\frac{3}{8}$ mile, 10 min., over pleasing old wood-road, to Mill Field. From S. E. corner take same wood-road trail by which approach was made, 1 mile, 20 min., through Gilley Field to Pumping Station.

WALK 9.

WEST PEAK and RAZORBACK by Sluiceway.

Distance about $4\frac{3}{4}$ miles. Time 2 $\frac{2}{3}$ hours.

Stop at Pumping Station on Great Pond (see No. 5.). For route to Mill Field, see No. 8. Signs in Mill Field. Leave SOUTH FACE on L.; take at N. end of Field the GREAT NOTCH and SLUICEWAY TRAIL. First, $\frac{3}{8}$ mile, 10 min., along old logging road beside ravine. Then, fork, R. to GREAT NOTCH, L. up SLUICEWAY; take latter. Steep, rough climb, beside and in brook, $\frac{3}{8}$ mile, 15 min., to Lookout Point,

formerly head of timber slide. Some view over trees to S. E. Leaving SPRING TRAIL on L. and GILLEY TRAIL on R., take LITTLE NOTCH TRAIL, $\frac{3}{8}$ mile, 15 min., to Little Notch, between main and north summits of West Peak. Take Kaighn Trail on L., $\frac{1}{4}$ mile, 10 min., steep through fine timber, to summerhouse on main summit (1073 ft.). View restricted. Return by same route over Kaighn Trail to Little Notch. There, leaving LITTLE NOTCH TRAIL and CIRCULAR TRAIL on R., and CIRCULAR TRAIL on L., proceed by steep MOSS TRAIL over north summit of West Peak, noting mosses and outlook from under spreading tree on little shoulder, crossing CIRCULAR TRAIL at bottom of a steep descent, on and down to Great Notch—in all, $\frac{1}{2}$ mile, 25 min. Great Notch lies between East Peak and West Peak. On L., CENTER and PRETTYMARSH TRAIL; on R., GREAT NOTCH TRAIL to GILLEY TRAIL; in front, RAZORBACK TRAIL up East Peak. Take this last, N. E., $\frac{1}{4}$ mile, 15 min., (steep climb) to top of narrow ridge of Razorback. View. Leaving EAST PEAK TRAIL on L., continue on RAZORBACK TRAIL down ridge, $\frac{3}{4}$ mile, 30 min., with exceptionally impressive views, to GILLEY TRAIL. Turn to L.; 2 min., to big wood-road; tree covered with signs. Turn to L., past cellar-hole, 1 min. to Gilley Field. Leaving VILLAGE TRAIL on R. and EAST PEAK TRAIL on L., return to Pumping Station, $\frac{1}{2}$ mile, 10 min., by COLD BROOK TRAIL, the same route used in coming.

WALK 10.

CENTER and PRETTYMARSH.

Distance about $7\frac{1}{4}$ miles. Time $2\frac{3}{4}$ hours.

On main road from Somesville through Prettymarsh to Seal Cove and Bass Harbor, there is, about $1\frac{1}{2}$ mile S. of Prettymarsh, on W. side, opposite schoolhouse, a road to BAYSIDE. Pass this, and pass two houses on E. side, beyond the schoolhouse. Stop here, beside farm with flagstaff; R. F. D. box with name of CLINKARD. On left, or E. side, by the second of the two houses just mentioned rises a steep rough lane (possi-

ble for a Ford) leading to the old Clinkard farmhouse; very sightly. From L. end of house take path running to R. of barn, N. E., to L. of well, into track which soon crosses brook between Hodgdon and Seal Cove Ponds. Just across brook, take left-hand path, rather faint at beginning, but presently a wood-road. Soon ($\frac{1}{2}$ mile, 15 min., from farmhouse) a fork is reached; take right-hand route (the other goes also to Pretty-marsh path). Several turn-outs are met, all coming back to main trail. One of them, on R., marked CENTER and WEST-ERN MT., should be taken to avoid the worst part of the wet. It presently joins main wood-road again, and very soon one reaches higher land, with view out to N. W. and W. Road from here on is good and clear, $1\frac{1}{2}$ mile, 45 min., to junction with PRETTYMARSH TRAIL. Leaving this on L., keep on up through forest $\frac{1}{2}$ mile, 15 min., to Great Notch. Signs, showing routes up E. and W. peaks and down to Gilley Field on the other side. Return by same path by which ascent was made, 10 min., to junction; there, take PRETTYMARSH TRAIL, leaving CENTER TRAIL on L. The path, which is an old logging-road, often a bit overgrown and swampy in spots, leaving midway on L. a CENTER TRAIL, proceeds N. N. W. altogether 2 miles, 60 min., as far as a broad wood-road. Here turn L., avoiding routes to E. and N.; proceed W. $\frac{3}{4}$ mile, 15 min., to Prettymarsh, emerging on highway from Somesville to Seal Cove. Turn L., leaving on R. a road to the shore. Follow highway S. W. then S., $1\frac{1}{2}$ mile, 30 min., back to Center.
